PROJECTS

React User Search & React Weather Apps

Creator

- Developed front-end user experience using React.JS, Redux, React-Paginate and RESTful APIs.
- One App allows users to search for names and filter the results also allows users change the number of users displayed per page. The other app allows users to display daily and 7 day weather for their location.
- Built app with React while managing State through Asynchronous Redux Actions.
- Implemented the React Router DOM to allow nested RESTful routing.

Frontend Mentor Projects

Creator

- Developed front-end with HTML, CSS, and vanilla Javascript.
- Created Mobile Responsive User Experience with CSS flexbox that allowed the user to view websites on a variety of different devices.
- Converted Figma designs into pixel perfect websites.
- Used Git to track and update code changes.

WORK EXPERIENCE

Senior QA Automation Engineer

Wonderbill

📅 May 2021 - February 2022

- Performed regression and exploratory testing of Mobile apps on Android and iOS mobile devices.
- Designed, develop and execute manual and automation scripts.
- Wrote automated UI and End-to-End tests using Detox and TypeScript.
- Raised and tracked bugs in Jira.
- Created automation framework from scratch.
- Liaised with internal teams (e.g. developers and product owners) to identify requirements.

ABOUT ME

I'm Frontend developer who loves to convert beautiful designs, into pixel perfect web interfaces. I have a really good eye for details, so this kind of challenges are really amazing for me. Currently I'm being mentored by a Senior Software Engineer from Cinch.co.uk, who has helped me level up my technical skills, showing me different ways to resolve my issues, and how to write clean and modular code. I have created multiple projects from Frontend Mentor, and some set by my mentor. My favourite tools of the trade are CSS, JavaScript, React and I'm ready to take on new challenges.

EDUCATION

BSc. Dip (Hon's) Environmental Biology
University Of Greenwich

Access Course in Applied Sciences
Lambeth College
Applied Science

English
Lambeth College
GCSE English
